

# Whole-Person, Integrated HIV Care

We go beyond traditional HIV care by integrating medical, behavioral, and social support into a holistic wellness experience. Our specialized Care Team is here to provide expert, tailored care so that you feel seen, valued, and supported.

## Comprehensive HIV Testing, Prevention & Treatment

- HIV testing with early intervention and prevention services
- Medical case management to help navigate care and resources
- Ongoing HIV care & treatment for all stages of diagnosis
- Behavioral health services ensure emotional and mental well-being
- Social support services as an additional layer to your healthcare journey

## PrEP & PEP: HIV Prevention for At-Risk Individuals

We offer Pre-Exposure Prophylaxis (PrEP) and Post-Exposure Prophylaxis (PEP) to prevent HIV transmission, ensuring that at-risk individuals have easy access to preventative treatment.

## Complete primary care for people living with HIV

We offer full primary medical care for those living with HIV, including:

- Routine checkups and chronic disease management
- Behavioral health services for mental wellness

## Expert, Inclusive Care for People Living with HIV

Led by **Dr. Adam C. Lake, MD**, our experienced Care Team specializes in HIV/AIDS treatment, the Ryan White Program, and whole person, inclusive care.

The Ryan White Program helps people living with HIV access medical care, medications, and essential support services. You may qualify if you have HIV or AIDS, meet income guidelines (at or below 500% of the Federal Poverty Level), and have limited or no health insurance.
